Detailed Action

1.

In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 1-49 are rejected as being based upon a defective reissue Oath or Declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth.

A)

In an amendment received September 30, 2002, there was an introduction of new claims 48 and 49 however, no supplemental oath/declaration accompanied the amendment. This amendment is considered an error from the original patent.

B) Moreover, in an amendment received 9-2-2004, claims 12 and 30 were amended, however, no supplemental oath/declaration accompanied the amendment. This amendment is also considered an error from the original patent.

Art Unit: 2626

Receipt of an appropriate supplemental oath/declaration under 37 CFR

1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

2.

Allowable Subject Matter

Claims 1-11, 48 and 49 are allowed for the reasons set forth in the communication of May 27, 2003.

Claims 12-29 are allowed based upon the persuasiveness of the argument. Namely the recapture rule does not apply in that subject matter surrendered is now incorporated in claims 12 and 30.

The scanning module and the printer module each having a means to power said modules and each having separate housing or framing from each other has been set forth in claims 12 and 30.
